The March Collection

Our Flex Tencel Ponte is a key fabric that checks every box. Soft, smooth and incredibly resilient, this sophisticated doubleknit goes everywhere you do. We're offering it in of-the-moment shapes that work effortlessly into your wardrobe—like the notch collar jacket and our four favorite pants (slouchy, straight, wide and lantern). Tencel is made from responsibly harvested trees, in a closed-loop process that recycles 99% of chemicals.

The April Collection

Three new spring shades—Marigold, Sandstone and Cinnamon—pair perfectly with our warm neutrals. We love them in crisp, textural Organic Linen Délavé. In our Organic Handkerchief Linen, Cocoa offers a softer alternative to black that's perfect for warmer weather. We choose organic linen that's grown without harmful pesticides and herbicides in fields that are healthier for farmers, wildlife and surrounding communities—because Earth Day should be every day.

The May Collection

This season is all about mixing color, texture and print—and giving you more ways to wear our simple shapes. Organic Cotton Stretch Poplin is smooth and crisp, with a touch of stretch for movement. Subtly printed Silk Organic Cotton Dashes blends two natural fibers for a hint of shine. Both feature organic cotton, which skips the chemicals that make conventional cotton one of the most toxic crops. We start with fabric, which means we start with sustainability.

The June Collection

A modern way to dress, for work or weekend. Featuring our Brushstroke Silk Organic Cotton, a print we love with a touch of shine, and Puckered Organic Linen, a lightweight textural check inspired by seersucker. We designed these graphic styles in a simple palette of Black, White and Midnight—with an eye to timelessness and versatility. Because the most sustainable pieces in your closet are the ones you'll wear forever.
